

Heavy Equipment Mechanic – Airport Vehicle Maintenance

The Susquehanna Area Regional Airport Authority at the Harrisburg International Airport is searching for a Heavy Equipment Mechanic for the Vehicle Maintenance Department. This position troubleshoots, diagnoses, and performs required repairs for powered and non-powered equipment/vehicles, and other motorized/non-motorized equipment. Applicants also possessing a current Vehicle Safety Inspector License and Vehicle Emission Inspector License issued by the Commonwealth of Pennsylvania Department of Transportation will be preferred.

The ideal candidate will have a High School Diploma or General Education Degree (GED) and at least two years of experience working with heavy equipment and diesel engines. The Candidate must be able to pass FAA training as required and must possess a valid PA driver's license with a good driving record. All SARAA employees must be able to pass a 10-year background and criminal investigation in order to be issued Airport Identification Badge.

Applications can be found on our website at www.flyhia.com or apply in person to:
