

On behalf of the Pennsylvania delegation of the *Local Government Advisory Committee to the Chesapeake Executive Council* (LGAC), you're invited to join local elected officials in the South-central Region for a discussion about protecting and restoring local waterways!

During our time together, we will have an open discussion about YOUR community's water resource goals and share successes and lessons learned.

We will gather information about your community's resource gaps (staffing, technical assistance, funding, etc.), and identify what it is you need to more fully participate in watershed protection and restoration.

LGAC's purpose is to advise the Chesapeake Executive Council, including Pennsylvania's Governor, on how to effectively implement projects and engage the support of local governments to achieve the goals of the Bay Agreement. We provide a local government voice to the Chesapeake Bay Program and want to bring as many leaders to the table to share in that voice.
